For Circulation to all Riders at CIS

Dear Parents/Guardians and Riders,

The easing of community and border measures by the government has resulted in a significant return to normalcy in most aspects of life in Singapore. At Yeap Transport, we would like to assure you that we continue to remain vigilant and take the necessary precautions in compliance with all Land Transport Authority (LTA) and the Ministry of Education (MOE) guidelines to address Covid-19 concerns. This is to ensure a safe and comfortable journey for all riders.

We are closely monitoring the Covid-19 situation and implementing the following safe management measures laid down by the relevant government agencies:

- Bus crew and students must always wear masks on the bus. No one is permitted on the bus without donning a mask. Should students forget to bring a mask, there are spare ones on our buses, which the crew will offer to them. They must then don the mask to continue on the journey.
- Bus Monitors have been trained on expectations and control measures and will report prohibited activities if students fail to comply with reminders issued on the bus.
- Buses will be thoroughly wiped down and disinfected before every trip.
- Buses are equipped with full sanitizing equipment, inclusive of NEA approved disinfectant spray provided by the bus office.
- Before pick-ups in the morning, should students feel unwell, or have flu-like symptoms, they are encouraged not to board the bus but stay at home.
- We keep vaccination records of all our staff and crew who are fully vaccinated and encourage them to undertake booster vaccination.

Please refer to the latest precautionary measures by the respective Singapore government agencies here:-
